The Daily Sun, published every morning except Sunday, delivered by carrier in the city, or by mail to any part of the United States, postage paid for a year; \$2.50 six months; \$1.25 three months; or 5 cents for five weeks—strictly in advance.

Reading notices in local column to cents a line for first insertion, and 5 cents for each additional insertion.
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address: THE DAILY SUN, GAINESVILLE, FLA.

The Filipinos want relief from taxation. It will take a long time to get them used to a free government.

The crops of New England have been damaged by frost already this season. They are rather chilly in that country.

At the Farmers' National Congress in Richmond, Va., resolutions were adopted requesting government aid in road building.

The seizure of tobacco at the port of New York a few days ago said to be regularly imported from Cuba may stir up a small investigation in the revenue service.

If the fisheries of Sakhalin Island should prove to be worth upwards of \$1,000,000 a year to Japan, as has been stated, the Japs will have some fruits from their victory worth mentioning.

It is now said that the mountains of North Carolina will be thoroughly searched for diamonds. Several have been found there, it is claimed, but they may be only the sparkle of the "mountain dew."

M. Witte puffed up to his greatest expense when he said: "Russia will not give one kopeck." He didn't say, however, anything about the \$500,000,000 that Nick was going to put up from his inside pocket.

The (Kaiser) Banner is now telling Mr. Baugher what he must not do as a candidate for Governor. The Banner thinks it can dictate to him because that paper was one of the first, if not the first, to mention his name.

The Jacksonville contractors and carpenters are still on the outs. As a result the contractors are slow with their work and the carpenters will soon be out of pay. A compromise might help both parties out and help the city.

Samuel P. Ford of New York says that English jokes wear longer than American ones. He hasn't read the exchange much lately. Occasionally we hear across one that did good service "old de wah" and is in the harness yet.

The papers that are discussing a change in the date of the inauguration of the President must be of a different political faith. We have not considered the question, as our party has not been engaged in the inauguration of Presidents for some years.

When the Government bought the Philippine Islands many thought it was a foolish venture. But the administration evidently knew what it was about, as there is a lake of oil on the islands sufficient to supply the demands of the country for years to come.

Because some old fossil has taught that the little old Dutch town of Lancaster, Pa., for 56 years, The National News thinks that teaching is a dead easy thing and is not worth the nerves. It is quite evident that it is not a very profitable business, or the old gentlemen would be able to retire on a competence.

HEALTH IN FLORIDA.

There is much fear expressed by Northern people who spend the winter in Florida and go home early in the spring, lest they remain here so late that they contract malaria or are afflicted with typhoid fever. The facts are that such ideas originate in the minds of people who never set foot on Florida soil, who imagine it a morass, with an occasional spot large enough for an alligator to get out and sun himself, and where snakes and other creeping things do dwell.

The truth in regard to the health of Florida, and nothing but the truth, will show that the malaria is not hereabouts, as is supposed by these nervous people. In every country on this earth the system needs a cleansing in the spring, and in Florida it needs no more than in other sections.

The past summer, it is claimed by old settlers, has been the warmest for many years, and in nearly every locality there has been a cry that the rainfall has surpassed any summer for the past twenty years, yet the doctors complain that it has been distressingly healthy. The undertakers have been idle nearly all summer, and there has not been enough business in this line alone to keep one man from the poorhouse.

Many men have worked hard all summer, in heat and rain, never having a trouble from the effects of malaria, and although it was stated in the early spring that we were liable to have considerable fever here this summer, it has not put in an appearance and perhaps will not do so at the late season.

The people who come to Florida and spend the summer find the conditions so different from what they had supposed that after one or two years they have no hesitancy in pronouncing it as healthy as any that can be found, and instead of ducking into the shade when the hot rays of the sun come down, go about their work as though they had an awning to cover them. The sun is hot, to be sure, but it has killed mighty few, if any, people in the South, while in the North it has caused many hundred deaths the past summer.

Don't be afraid to spend the summer in Florida, and when a person talks of malaria, just compare figures with them. Florida is a healthy winter and summer resort.

THEY ARE FANATICS.

Dr. Charles H. Conway, pastor of the Water Street Methodist Church in Chicago, was in Atlanta a few days ago, en route to New Orleans, where he goes to assist in the fight against yellow fever. Dr. Conway lived in tropical countries many years before coming to America, where yellow fever is continually to be fought. His church gave him indefinite leave at full salary. In a conversation with a Constitution reporter he said:

"It is a mistake for the Southern people to think that the North does not sympathize with them fully in their every problem. Even in regard to the negro question there is in the North and Northwest a perfect harmony of feeling, and it is daily being regarded not as a sectional, but a national question for those most closely allied to it to solve. There are a few fanatics in the East who are still—well, you might simply say that they are simply—fanatics."

Pensacola people are making an effort to give that city a thorough cleansing, and then they will keep it clean in the future. A capital idea for every town in Florida.

The Tampa Board of Public Works should not undertake to run a hotel.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, O.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

SUNSTROKES.

The novels that have such large runs generally drop out of sight soon after.

Some people would not be happy if they didn't have something to grow about.

Every "blind tiger" that is captured has a tendency to open the eyes of the officers of the law.

The wind saved the Cape Cod cranberry crop from freezing, thus protecting our sauce crop for our turkey.

Unless the good roads association makes more rapid progress we will have to resort to those \$10 flying machines of Mr. Holland.

Doctors say the dengue germ is in every mouth. Guess the germ squirms a little when it comes in contact with a large quid of Battle Axe.

The Democratic committee of Marion county is still standing for home rule regardless of everything else. The principle of home rule is all right if it don't ruin at the same time it rules.

Under the Buckman law each county is entitled to send one student to either academic or normal department of both the University and the Female College, the said students being exempt from the payment of all fees and charges except for board.

Clay county will have an \$800 exhibit at the Tampa Fair.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longview hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 30, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."
E. H. BUNNEL, Lincoln, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

ORINO Laxative Fruit Syrup

Pleasant to take
The new laxative. Does not gripe or nauseate. Cures stomach and liver troubles and chronic constipation by restoring the natural action of the stomach, liver and bowels.
